

AFRICAN AMERICANS LIVING POSITIVE

2004 African American Outreach Initiative

March 13 & 14 • Renaissance Concourse Hotel • Atlanta, GA

The 2004 African American Outreach Initiative
is Dedicated in Loving Memory to

FAYE BROWN-SPERLING

May 5, 1947 – April 25, 2003

Co-Founder of the African American Outreach Initiative
First Chair of the AAOI Budget Committee
Co-Founder of Our Common Welfare

FAYE, WE HONOR YOUR LEGACY
THANK YOU

Greetings to All:

On behalf of the Metropolitan African-American Outreach Initiative Task Force, I would like to extend a hearty welcome to the 5th Annual African-American Outreach Initiative. Our mission, to encourage African Americans who are living with HIV/AIDS to access holistic treatment services in order to increase utilization of health care and promote medical adherence by providing information on available services, programs, and other resources, continues to be our focus.

Our Task Force, speakers, and volunteers include African-Americans who are successfully living with HIV/AIDS. It is important that the Initiative is planned for and by people from the community. It is our intention that as you attend this two-day educational event, you are able to not only interface with providers who deliver services in your community, but to also meet other African-Americans who are successfully living with HIV/AIDS.

Whether you are a first time attendee or never missed a year, we welcome the opportunity for you to inform us how we can best serve our community with an educational event such as this Initiative.

I would like to thank our sponsors, AIDS Service Organizations, Community-Based Organizations, Health Clinics and members of the Task Force for their tireless effort and support. United together we are able to positively impact the lives of all persons living with HIV/AIDS.

Until it's over,

Sabrina Taylor
African American Outreach Initiative
Planning Committee and Task Force Chair

THE AFRICAN AMERICAN OUTREACH INITIATIVE

The African American Outreach Initiative is a program of the African American Initiative Task Force of the Metropolitan Atlanta HIV Services Planning Council. The Task Force started as an ad hoc committee given the responsibility of developing an outreach strategy to encourage people of color to seek treatment for HIV and to maintain treatment. A diverse group of volunteers comprised of service providers, consumers, and community representatives developed its goal:

Encourage African Americans, who are HIV+, to access holistic treatment services in order to increase utilization of health care and promote medical adherence by providing information on available services, programs, and other resources.

The Task Force conducted focus groups and distributed surveys at four service provider agencies. The information collected was used to plan an educational forum. The weekend of the Black Church Week of Prayer for the Healing of AIDS was chosen for the first educational forum. A logo was created and the first Outreach Initiative was held on March 11, 2000 at the Wyndam Garden Hotel in downtown Atlanta. The theme of the first initiative was "The Hope Continues . . ." A New Century, A New Beginning, A New Attitude: African Americans Living Positive. Over 150 people attended the first initiative.

Needing a larger facility, the Initiative moved to the Holiday Inn Atlanta/Decatur in downtown Decatur for the 2001 Initiative. The space was needed because more than 250 people attended. Based on feedback from participants during the first year, a Resource Directory was developed, listing services available in the Atlanta Metropolitan area and the time for break out discussion group sessions was increased. The Initiative was expanded to two days in 2002 with an observance of the Black Church Week of Prayer added to the Sunday program.

In its fifth year, the African American Outreach Initiative has always been a volunteer effort. The planning committee is comprised of some individuals who have been involved since the beginning, others have joined along the way. Some of the committee members became involved after attending the Initiative. The planning committee meets over a nine month period to plan each year's activities. Additional volunteers attend the Initiative annually to perform a variety of tasks. All of the speakers, workshop presenters, panelists, and group facilitators volunteer their time and services. Our charge is to continue to strive to bring information on taking care of your body, your mind, and your soul to African Americans positively living positive.

Saturday

7:00-8:30
Registration

7:30-8:30
Breakfast

8:30-8:35
Welcome

8:35-8:50
Inspirational Opening
Rev. Danny Tillman, Jr.

8:50-8:55
Overview of Agenda

WORKSHOPS

9:00-10:15

HIV Infected, Now What?
(DeGaulle)

Terence McPhaul, M.A.
Emotional well being in health
maintenance. Interactions with
family, friends, lovers. Disclosure,
long-term relationships, dating,
intimacy. Preventing HIV
transmission and re-infection.

Employment
(DaVinci I)

Sonya Springer
Information to increase
employability, employment
options, accessing employment
and training opportunities.
Workplace behavior, interviewing,
etc. Examine unemployment as a
contributor of unsafe behaviors.

Adherence
(DaVinci II)

Audrethia O'Neal, RN
Information on the relationship
between adherence to medical and
drug treatment and regimens and
living healthy. Minimizing the
negative impact of HIV disease
and other medical conditions.

**This Is All So
Confusing??**
(Health Literacy)
(Narita)

Edith Biggers, M.D.
What is the difference
between viral load and t-cell
count? What does it mean if
I have an undetectable viral
load? What is the difference
between my primary care
provider and who pays my
bill? Information to help
translate HIV lingo and take
responsibility for your own
health care.

10:15-10:30
BREAK

10:30-11:45

**Creating Peace in the
Midst of Chaos (Stress
Management)**
(DeGaulle)

Ra Kabeer
Appropriate management of stress
and anger to reduce negative
impact on health outcomes and
practice of safe behaviors.

Self Advocacy
(Narita)

Greg Smith
Information on advocating for self
in accessing services,
understanding rights and
responsibility to prevent
transmission. Disclosure in the
workplace.

Nutrition
(DaVinci I)

Hermeyone Hunter, M.S.
Healthy nutritional practices,
including accurate information on
supplements, appetite stimulants,
appropriate food choices, medical
interactions, and safe water
consumption. Relationship
between nutrition, the immune
system, and wasting.

**11:45-1:00
RESEARCH
PLENARY**
(Ballroom)

April Rucker, AIDS Research Consortium – African Americans and Clinical Trials
Mark B. Feinberg, M.D., The Hope Clinic, Emory Vaccine Center – HIV Vaccine Research and Development
Dazon Dixon-Diallo, MPH, SisterLove, Inc. – Microbicides
Moderator: Dale P. Maddox, LCSW, Emory University AIDS Clinical Trials Unit

Information on the current state of affairs in HIV research. The relationship between research and the availability of high quality and effective medical care and other services. Discussion on the importance of understanding research, how the research being conducted will impact you, and what you need to know about HIV research.

1:15-2:45

Long Term Survival, Bereavement
(DeGaulle)

Stephen Stafford, M.S.
Strategies for coping with the complications of living with HIV disease. Address depression and caution against sexually acting out to prevent transmission of HIV. Appropriate and useful strategies for coping with grief and loss.

Housing
(DaVinci I)

Kenneth Gantt
Discussion on the application process for HIV housing and housing in Metropolitan Atlanta for persons with disabilities. Information on housing resources based on income. Information on financial assistance services offered by the Living Room.

Oral Health
(Dorval)

David Reznik, D.D.S.
Discussion on the importance of oral health in reference to possible opportunistic infections and modes of transmission and re-infection and how to prevent transmission of HIV.

Datin' & Dealin' & Living
(Under 25)
(Narita)

Nyrobi Moss
Discussion on relationship issues unique to individuals under 25. Strategies for dealing with those issues while taking care of yourself and acting responsibly.

**2:45-3:00
BREAK**

3:00-4:30

Disclosure
(DaVinci II)

Gregory P. Amos
Guidance in making decisions regarding when to disclose HIV status, to whom, under what circumstances, how to disclose, and how to deal with the repercussions.

Positively Under 25
(Narita)

Jeffery Roman
Designed for individuals under 25. Roundtable discussion addressing risk reduction education and identifying the real issues for individuals 25 and under. What are the needs, how can they best be addressed?

Preventing Opportunistic Infections
(Dorval)

Andrea Jackson-Saboor, M.S.N.
Emphasis on preventive care. Examination of medical side effects and interaction with other substances. Strategies for maintaining health.

Addictive Disease
(DeGaulle)

Patricia Brown, B.A.
Information and guidance in understanding the intricate and potentially detrimental relationships between Substance Abuse and HIV. Proven practices to address the co-morbid issues and reduce risk for infection and transmission of HIV.

Using (Qi Gong) Chinese Breathing to Promote Healing
(Tempelhof)

Wholistic Stress Control – Jennie Trotter M.Ed., Tina Marrow Rasheed, M.Ed. & Kofi Kondwani, Ph.D.
Instruction on what Qi Gong (Chee Gong) is, the history of this breathing exercise, and healing practices for people living with HIV/AIDS. Instruction on how to use Qi Gong as a stress reduction tool.

SCHEDULE

Gregory P. Amos

Risk Reduction Specialist, Our Common Welfare. He has 22 years of experience in HIV/AIDS, including outreach education, prevention outreach and case management, HIV services case manager, Health Services Administrator, Southeast Regional Program Capacity Building Assistance Coordinator, and Program Coordinator/Specialist for the Office of Minority Health. Mr. Amos is the Chair of the Health and Safety Committee of Atlanta Black Gay Pride, Deputy Director of Phoenix Group, Advisory Board Member of the Hope Clinic, and Co-Founder of the Minnesota Men of Color and HIV Prevention Services Program.

Edith Biggers, M.D.

Practicing physician who has provided medical services for individuals with HIV/AIDS for several years. She is a member of the Advisory Board of Black AIDS.org and has presented and/or served as a volunteer at the Initiative since its inception.

Patricia Brown, B.A.

NCAC, CCS, Co-founder and Executive Director, Our Common Welfare. Before assuming the directorship of OCW, Ms. Brown was the HIV Prevention Coordinator with Saint Joseph's Mercy Care Services. She holds a Bachelor's degree in Behavioral Science and is national and state certified Addictions Counselor and state certified Clinical Supervisor. She conducts training in HIV and addiction, team building, community outreach, and other topics related to behavior modification.

Kenneth D. Gantt

Housing Specialist, Living Room. Opened the Legacy Village in 1995 while working with Southside Healthcare. He was the on-site Resident Manager for Legacy Village during its first year of operation. Mr. Gantt served as a case managers for six years with the Strathome Program of AID Atlanta, serving clients with HIV and substance abuse difficulties.

Dia S. Hodnett, MPH

Certified personal trainer, group fitness instructor, and lifestyle management health educator. She is an advocate for women's health, happiness, and fulfillment with a Masters in Public Health. She has worked with community based research project focused on adolescent African American women and sexual health.

Hermeyone Hunter, MS

FPN-C, AACRN, Nurse Practitioner, Joye Bradley Health Services Clinic. Ms. Hunter is the current chair of the Nutrition/Food Services Task Force of the Metropolitan Atlanta HIV Services Planning Council. As a Nurse Practitioner, she works with people living with HIV/AIDS to empower and educate them so that they can participate in their care.

Ra Kabeer

Educational Trainer and Consultant, Wholistic Stress Control Institute for 10 years in stress management, violence prevention, HIV/AIDS education. He has facilitated HIV Prevention workshops for eight years, has worked with individuals living with HIV as a Massage Therapist and Chi-Gong Specialist. He is a Social Worker/Trainer for The

Peace Project and has conducted violence prevention workshops, group sessions – youth, incarcerated teens, parents, and professionals.

Kofi A. Kondwani, Ph.D

Directs Mediation Clinic, Department of Family Medicine, Morehouse School of Medicine. He has served as Transcendental Meditation(TM) treatment provider in National Institutes of Health, Department of Defense, and National Center for Complementary and Alternative Medicine clinical trials. Dr. Kodwani has over 25 years experience teaching the TM technique as a prevention and treatment strategy in hospitals, health clinics, schools, businesses, and prisons and has written articles for professional journals. He holds a doctorate from Maharishi International University, Fairfield, Iowa.

Terence McPhaul, M.A.

NCSC, Mental health therapist and Director of McPhaul Consultants. Creator and facilitator of the Managing Stress and Celebrity Conference and has authored a book on the topic. Master's degree in Counseling Psychology, completed coursework for a Ph.D.

L. Nyrobi N.Moss

Healthy Love Program Coordinator for SisterLove, Inc. responsible for implementation and development of community health education services for women living with and at risk for HIV/AIDS. She is a Perinatal Peer Educator, facilitating HIV prevention workshops and assisting in the development of materials. Her experience includes conducting

seminars on health education, safer sex, women's health, Tao sexuality, and deviant sexual behaviors. She is a motivational speaker invited to serve as host, presenter, and keynote speaker at universities, conferences, and forums in the United States and abroad.

Aurethia O'Neal, RN

Nurse Educator, Association of Nurses in AIDS Care (ANAC). She provides education on HIV medications and case management services. She works with HIV consumers to help them understand the HIV process and medications and to empower them in their own care. Ms. O'Neal's focus is to educate and increase the awareness of her patients and the general community of HIV and AIDS.

Apostle YaQar Ogbue, BSW

Senior Leader, Founder, CEO, Alpha and Omega AIDS Foundation and Health Initiatives International and YaQar Ministries. Associate's Degree in Human Services/Mental Health Technology, Bachelor's in Social Work and Recreation Education. Studied at Cedar Grove Academy Bible School, R. W. Shambach Bible College, and Rhema Bible Training Center. Became local organizer, Black Week Church of Prayer for the Healing of AIDS in 1995, consecrated to the Office of the Apostle in 1998. Apostle YaQar has been working as a consultant to the Church and Church leaders for over 10 years. She is a consultant for the New Mexico Department of Health, HIV Prevention Program and the Alabama Clergy and organizations.

Guy Pujol

Executive Director of AIDS Treatment Initiatives, a wholesale buyers club specializing in nutrients and supplements to address the effects of HIV.

Tina Marrow Rasheed, M.Ed.

A certified health educator, is the Director of Self Works, an organization focused on assisting in the identification and management of stressors in everyday life. She applies her knowledge and experience of Qi Gong in the development and implementation of health promotion and disease prevention programs. She is committed to providing education and service to those most in need - the medically underserved and senior populations.

David A. Reznik, D.D.S.

Director of the Oral Health Center of Grady Infectious Disease Program of Grady Health Systems. He is President of HIVdent, an Internet organization designed to facilitate the oral health care of people living with HIV disease and Dental Director of the Southeast AIDS Education and Training Center (SEATEC). His research activities include the epidemiology and management of candidiasis in people living with HIV. Dr. Reznik is a graduate of Emory College and Emory University School of Dentistry.

Jeffery Roman

Program Associate, Georgia Office of Minority Health. Volunteer facilitator, Together for Life support group, Fulton County Department of Health and Wellness, member of the Georgia Community Planning

Group. Featured on local radio and television, advocate for better prevention and care services for African American men and youth.

Andrea Jefferson-Saboor, MSN

FNPC, Family Nurse Practitioner, Association of Nurses in AIDS Care (ANAC). Ms. Saboor works with people living with HIV and AIDS to educate and empower them with knowledge regarding the disease and empower them in their care.

Stephen Stafford, M.S.

M.Div, Mental Health and Substance Abuse Counselor, HIV Early Care Clinic, DeKalb County Board of Health; Clergy person with Redemption Community Church. Over 25 years of experience in mental health, chemical dependency treatment, and HIV related treatment services as well as an on-going role as a clergy person.

Jennie C. Trotter, M.Ed.

Founder and Executive Director of Wholistic Stress Control Institute (WSCl), Inc., is a licensed counselor, preventionist and wellness expert. She has been a student of Tai Chi and Qi Gong for the last eight years. Ms. Trotter has trained under four Master Instructors and has hosted three conferences on "The Healing Powers of Tai Chi and Chi Kung" in Atlanta. She has supervised two WSCl programs, Stress Management and Qi Gong classes for people living with HIV/AIDS.

RESEARCH PANELISTS

Dazon Dixon-Diallo, MPH

Founder, President, and Chief Executive Officer of SisterLove. She has written journal articles on issues regarding reproductive health of women of color and the special needs of HIV positive women. She has participated in studies investigating the impact of the presence of violence in the lives of women at risk for HIV; the effectiveness of a comprehensive intervention to reduce risky sexual behavior, alcohol and other drug use, and delinquency among adolescent social offenders; and using social networks to reduce risky sex in women living with HIV. She has 20 years of experience in women's reproductive health and 18 years of experience women's issues around HIV/AIDS. She is a founding member of the Metropolitan Atlanta HIV Services Planning Council, the Georgia AIDS Task Force, and the Georgia Women's Resource Network. Ms. Dixon has been recognized by the U. S. Secretary of Health and Human Services, Spelman College, National Public Health Honor Society, and the Metro Atlanta Kwanzaa Association. She holds a Masters degree in Public Health.

Mark B. Feinberg, MD

Ph.D., Medical Director of the Hope Clinic of the Emory Vaccine Center and Professor of Medicine (Infectious Diseases) and Microbiology and Immunology. He is the Principle Investigator for the HIV vaccine clinical trials, actively involved in assessing

the safety, effectiveness, and tolerability of two categories of HIV-1 vaccines. He is involved in the development and evaluation of an AIDS vaccine. Dr. Feinberg is developing a culturally appropriate model on human decision making on the acceptance or recommendation of various HIV vaccines with the Behavioral Core of the Emory Center for AIDS Research (CFAR). He has been in the field of AIDS research and HIV vaccine development since 1986 and has written over 90 articles for professional journals.

RESEARCH PLENARY MODERATOR

Dale P. Maddox, LCSW

Research Social Worker, Emory Clinical Trials Unit, Emory University School of Medicine, has nine years of professional experience working with persons living with HIV and their families. She assesses patients' eligibility for specific protocols and works in the community to promote clinical research and to educate the public about its importance. She holds a Master's degree in Social Work from the University of Georgia and is a licensed clinical social worker.

BREAKOUT GROUP FACILITATORS

Richard Anderson

Peer Counselor with AIDS Survival Project and the BRAC Center. He provides community peer support and training.

Stacy Bolling

Capacity Building Assistance (CBA) Program Specialist with the National AIDS Education & Services for Minorities

(NAESM). He has been involved in the delivery of services targeting African American MSM. He has conducted numerous workshops and provided training targeting this population.

Dee Dee Chamblee

Participating partner in HIV/AIDS prevention and education efforts. Has been living positively for 16 years. Ms. Chamblee began working in HIV as a volunteer certified nursing assistant and has served as a volunteer peer counselor. She has worked as a peer counselor for area HIV/AIDS prevention and care programs. Ms. Chamblee founded LaGender, Inc., a support group for transgenders.

Jewel Chandler

Service Coordinator, Integrated Life Center, Absolute Wellness BRAC Center. She facilitates groups for individuals who are HIV positive and spiritual retreats. Her experience includes facilitating session of the Thrive Program and AIDS 101. She is a Red Cross certified HIV/AIDS Instructor. She is driven by her desire to give back to the community and has been a facilitator of "For Women Only" for the past four years bringing a message of hope.

Michael Howard

Counseling and testing specialist with NAESM. He has worked in the field of HIV/AIDS for the past nine years. He has a background in HIV/AIDS education and prevention as it relates to MSM. Mr. Howard has presented in workshop forums around the country.

CONSUMER PANELISTS

George Burgess

Treatment Educator, AIDS Survival Project, where he was a long time volunteer. He is a regular presenter for AIDS Survival Project Thrive Weekend on safer substance abuse and harm reduction and has spoken national and locally on HIV. Mr. Burgess has been featured on a three tape video series produced by the NAACP and DuPont Pharmaceuticals. He was diagnosed with HIV in 1995 and is now living with AIDS. He is the father of four and just celebrated seven years in recovery.

Judith Clark

Social Services Technician and Peer Counselor with the Cobb County Health Department. Has been living positively for ten years and has been a member of the Initiative Consumer Panel for three years. Ms. Clark volunteers for local agencies, is a member of the Metropolitan Atlanta HIV Planning Council, Secretary of the Ryan White Consumer Caucus, member of the Georgia Community Planning Group, President of Miracles AIDS Network, Executive Board Member of AIDS Survival Project, and Board Member of Someone Cares, Inc. of Atlanta.

Reginald Coleman

Form manager with Xerox. Facilitator of the Men Who Love Women breakout discussion group during the 2002 and 2003 African American Outreach Initiative.

Robbie Thompson

Peer Counselor, Grady Infectious Disease Program.

Sean R. Williams

Peer Counselor, Grady Infectious Disease Program. He was diagnosed in January 1991 and has been recovering from drug addiction since August 4, 1994.

CONSUMER PANEL MODERATOR

Marvin M. Ghourm, Dr. PH

MBA, MPH, CHES, Director of the HIVAIDS Prevention and Continuity of Care Demonstration Project for Incarcerated Individuals with Correctional Setting and Community/Client Services Supervisor, AID Atlanta. He is a former public school administrator with experience in teaching, public speaking, and project development. He holds a doctorate in Public Health with an extensive background in HIV/AIDS program administration, grant writing, client services, community outreach, treatment research, and advocacy. Dr. Ghourm is a highly creative and talented communicator. He has been the moderator for this panel for the last four years. He has chosen to participate because this is one of the biggest fights that he has ever had a need to participate in. It has been an epic struggle for the last 20 years. His personal goal for 2004 is to "Pray for the dead and fight like hell for the living!"

INSPIRATIONAL

Apostle David B. Lay

Pastor and Chief Executive Officer of the Greater Harvest

Full Gospel Church and Matrix Concepts, volunteer at AIDS Survival Project. A Student of Judaic Messianic Prodigal, he received an Honorary Doctor of Divinity from the International Gospel Fellowship Institute of Biblical Studies in South Carolina.

David J. Malebranche, MD

MPH, Assistant Professor, Division of General Medicine, Emory University. He is a board certified internal medicine physician with training in Preventive Medicine and Public Health, and is involved in HIV Prevention Research in Minority Communities Program with the Center for AIDS Prevention Studies in San Francisco. Dr. Malebranche supervises medical residents at Grady Hospital and has a private practice at the Ponce Center in Atlanta. His research interests include Black men's health and behavioral HIV risk factors among men. He is a nationally recognized speaker who travels the country discussing HIV prevention in the Black Community and the medical treatment of HIV.

Rev. Al Shellman

Ordained Minister, studied New Thought, church of Eric Butterworth and the Barbara King School of Ministry. After being ordained, called by the Spirit to work with the HIV/AIDS Ministry.

Rev. Danny Tillman, Jr.

Elder, President, Founder of Remnant Ministries. Licensed Minister and Evangelist over ten years. For the last five years he has been an HIV advocate, educator, and prevention specialist.
